Therapeutic Horses
OF SARATOGA

Lifetime Allegiance

The Therapeutic Horses of Saratoga Lifetime Allegiance Program is in place to provide continuing support to our adopted horses and their adoptees. For the first year of adoption, we ask for updates at 3 months, 6 months, 9 months and 12 months. After the one-year mark we want to hear about our adopted horses annually.

All updates should include the following:

- Full body pictures of the horse, taken within the last 2 weeks (without blankets or tack).
- Feeding Routines, including specific amounts of grain, hay and supplements.
- Where the horse is being kept, including information about turn out, herd mates, shelter, fencing, water and caregivers.
- We also want to hear about what you've been getting up to with your horse! We love to hear stories of partnership and accomplishments throughout the adopted horses' lives.
- Farrier routine, including frequency, and if your horse is barefoot or shod.
- Veterinary routine, including what routine care you use and any other injury, or illness you've treated.

If an owner wishes to sell or transfer ownership of their adopted horse, they are required to contact Therapeutic Horses of Saratoga (dr.sisk@thsaratoga.org) and a transfer contract will be provided. All new owners will become responsible for yearly Lifetime Allegiance Updates moving forward.

Lifetime Allegiance annual updates are due **July 31st, each year** Early submissions are encouraged and appreciated.
